The Arts @ Large Café Business Leadership Career Development Program working towards providing a hands-on learning experience for budding chefs and baristas at the new Arts @ Large Café. Each intern will participate in an extensive training focused on the intricacies of operating a café. Interns will also gain an understanding of purchasing through tours with our supplies and will become ServSafe certified. Café Business Leaders are engaged in the following ways:

- **Financial Literacy** - students work closely with Educators Credit Union to learn money management life skills, as well as learn the importance of creating a budget and opening bank accounts.

- **Barista Training** - Anodyne Coffee Roasters provide hands-on barista training to all Café Business Leaders. This training includes the how-tos of making coffee beverages and education about the beans so that interns can not only make beverages, but educate café customers.

- **Menu & Product Development** - students will be given the opportunity create unique coffee beverages to be sold in the café, as well as brainstorm and prepare café menu specials. Additionally, interns have the opportunity to create a unique flavor of ice cream to be made by Purple Door Ice Cream and sold at the Arts @ Large Café.

- **Inventory** - interns will work with the Café and Culinary Arts Manager and Assistant Café Manager to recap sales and inventory, as well as formulate café prep lists for next shifts.

- **Food Safety Training** - interns will participate in a series of workshops learning safe food handling practices and the importance of food safety, as well as taking the ServSafe Food Handlers exam, before preparing food in the café.
